WORK EXPERIENCE

App Development:

(March 2023-Current)

- **Design and UX:** Design user interfaces and improve user experience, created detailed wireframes.
- **State Management:** Manage app state with Provider, GetX and Bloc etc. for efficient data flow and responsive UIs.
- **Backend Integration:** Integrate apps with backend services, manage Firestore database; arrange server data.
- **Testing and Debugging:** Identify and resolve issues through rigorous testing.
- **Performance Optimization:** Optimize app performance, reduce load times, and ensure smooth animations.
- **Content Management:** Develop and direct app content creation.

Hobbies:

Eat, sleep, code, cricket.
