

Shah Nawaz

Flutter App Developer

✉ womerciaofficial@gmail.com

☎ +923498515385

📍 Rawalpindi, Pakistan

📄 PROFILE

- Experienced Flutter developer building production-ready marketplace and service apps. Skilled in REST API integration, pagination, Firebase notifications and location based services. Reduced app bugs by 30% and improved performance by 25–30%. Collaborates with designers and backend developers to deliver scalable, user-focused solutions. Motivated to create high-quality mobile applications that drive client success.

📁 PROJECTS

UDealZone App - Available on Playstore and App Store

12/2023 – 06/2024

Built a Flutter app for buying, selling, and renting products with chat, location sorting, and multi-role support. Integrated APIs, Firebase, and AdMob while improving performance and security.

BKC (Bolain Kya Chayai) - Available on Playstore and App Store

Developed a Flutter delivery app for food, groceries, and parcels with real-time tracking, secure payments, and REST API integration.

And many more.

📄 CERTIFICATES

Flutter Development Certificate

Level 1 and Level 2

🧠 SKILLS

Flutter & Dart

● ● ● ● ●

Null Safety, Async/Await, OOP, Custom Widgets, Responsive UI, State Management (GetX, setState), Animations, Theming, Widget Testing

APIs & Networking

● ● ● ● ●

REST, JSON, Pagination, Authentication, Error Handling, HTTP Requests, WebSockets

Firebase

● ● ● ● ●

Notifications, Auth, Firestore/Realtime DB, Analytics, Cloud Functions, Crashlytics

Backend

● ● ● ● ●

ASP.NET ↗ Core, Laravel, SQL Server, MySQL, API Testing (Postman, Swagger)

Monetization and ad

● ● ● ● ●

AdMob, In-App Ads, Referral & Reward Logic

Location

● ● ● ● ●

Maps Integration, Location Services, Geocoding, Reverse Geocoding

Tools

● ● ● ● ●

Git, GitHub, Android Studio, VS Code, Xcode, CI/CD Basics

📁 PROFESSIONAL EXPERIENCE

Freelance

01/2021 – Present | Remote

- Managed multiple client projects end-to-end, adapting to changing requirements and delivering high-quality apps on time across marketplaces, service, and eCommerce platforms.

Flutter App Developer at 619 Technologies

06/2023 – 08/2024 | Skardu, Gilgit Baltistan

- Developed and maintained Flutter mobile apps with high-quality UI/UX and smooth performance. Integrated REST APIs, Firebase notifications, AdMob, and location services. Implemented state management, reusable components, pagination, and secure authentication. Collaborated with designers and backend teams to deliver features, optimize performance, and support end-to-end project delivery.
